Title : Need to provide more funds for beautification of 'Khajjiar Lake' in district Chamba, Himachal Pradesh.

PROF. CHANDER KUMAR (KANGRA): The Khajjiar Lake in District Chamba of Himachal Pradesh is not getting the treatment it deserves. The lake suffers from the perrenial problem of weeds and slush formation and efforts should be made to keep the place litter free. Steps should be taken for its beautification. Many years ago, water of the lake was even used for drinking but now, the depth of the Lake has also started decreasing, since silt and cow dung flows into it from the slopes. The Tourism Minister of the Central Government had inaugurated Chamba Millennium on the 13th April this year and I urge upon her to sanction enough money for the beautification of this lake, which attracts lakhs of people every year.
